

GEMTRIM[®]

CONTROL VALVE SPARE PARTS

SIAMSUN CORP., LTD.

GEM-TRIM Industrial Valve Products

Your Premier Parts Manufacturer

Your Power Trim Source

Gem-Trim provides more than 50 utilities with genuine Industrial valve products, new and refurbished valve trim, specialty items, control valve repair, valve trim repair, welding and machining. Clients look to the Gem-Trim name for.....

- competitive pricing
- on-time delivery
- comprehensive inventory and service offering
- reliability
- quality

Need hard-to-find or obsolete parts? Our extensive library of 50,000 drawings covers 100,000 parts from most major manufacturers. Drawings accurately document dimensions, materials, special processes, and quality requirements.

Count on us! The power industry has relied on our control valve parts for more than 40 years. Our genuine Gem-Trim parts meet or exceed the quality of original manufacturers' parts and are completely interchangeable in form, fit and function.

We inspect all Gem-Trim parts to verify compliance with drawings and work orders. All Gem-Trim parts are etched with part number, material, work order number, and customer stock number to ensure traceability.

Gem-Trim[®] Industrial Valve Products

Replacement Trim for Fisher[®] Valves

Trim for Fisher[®] A Body Valves

Gem-Trim manufactures replacement plugs, stems and seats (as shown), as well as guide bushings, gaskets, diaphragms and soft goods for *Fisher*[®] A Body valves. These valves are typically used in dump service and for general controlling applications.

SIZES: 1/2" through 16"

Trim for Fisher[®] BFC Body Valves

Pictured here is a *Gem-Trim* replacement plug, stem, seat and cage for *Fisher*[®] BFC Body valves, applicable for corrosive fluid service and for general controlling. In addition *Gem-Trim* offers sub assemblies, valve bodies, guide bushings, gaskets, diaphragms and soft goods as replacement parts for these valves.

SIZE: 3/4", 1", 1-1/2", 2", and 3"

Trim for Fisher[®] D Body Valves

Gem-Trim replacement plugs, stems, and seats (as shown) for *Fisher*[®] D Body valves are typically used for high pressure service for dumping and general controlling in oil production, power plants and gas distribution systems. Also available are guide bushings, gaskets, diaphragms and soft goods.

SIZES: 1" and 2"

Fisher is a registered trademark for Emerson Process Management.
